SAFETY

READ AND PRACTICE SAFETY RULES IN THIS MANUAL:

1. **DANGER!**
This machine contains sharp knives and rotating parts. Never operate this machine if any guard or safety device has been opened, removed, or modified; doing so can result in serious injury or amputation.
2. When covers or guards are opened or removed, sharp edges and pinch points are exposed. Use extreme caution to avoid touching or striking these areas with your hands or body.
3. Always **disconnect and lock out the power source**, push the "I" (IMPELLER START) button and verify machine does not start before doing any work on this machine.
4. **DANGER!**
Never put your hand or any foreign object into the feed opening or discharge area. Serious personal injury and/or damage to the machine may result.
5. **NEVER** attempt to assist the feeding or discharging of product with your hands.
6. Only qualified trained personnel should attempt to clean, adjust, operate, repair or maintain the machine. Proper cleaning and maintenance procedures are found in the maintenance section of this manual.
7. This machine contains protective covers and guards equipped with safety switches. If the machine operates with any of these protective covers or guards opened, removed or modified, this machine is not safe to operate.
8. Call a qualified electrician (*from the Technical Department*) immediately to locate and repair the fault. *This deviation must be repaired before the machine can be used.* Prior to operating the machine, the safety switches must be checked by qualified trained personnel. Complete information on checking safety switches is found in the safety section of this manual.
9. Should the machine become overloaded or jammed, DO NOT attempt to correct the problem with the power source on. **Disconnect and lock out the power source.** Detailed instructions for correcting product jamming are found in the operation section of this manual and should be read and understood by all maintenance, service, or operation personnel.
10. The sound pressure level produced by this machine is likely to exceed 85 dB(A). Use adequate hearing protection.

Safety signs and safety switches are placed on Urschel® machines to help you avoid personal injury. **They are there for your protection.** If your machine does not have these signs or switches, you must not operate the machine.

I have read and understood the instructions and agree,
